Portfolio: alexmorgan.example.com

PROFESSIONAL SUMMARY

Results-driven Senior Software Engineer with over 7 years of experience designing, developing, and deploying scalable web applications. Experienced in full-stack development, cloud infrastructure, API design, and distributed systems. Strong background in JavaScript, TypeScript, React, Node.js, Python, and AWS. Proven ability to lead engineering teams, optimize application performance, and deliver reliable software solutions in Agile environments.

CORE COMPETENCIES

Full-Stack Development • Software Architecture • REST API Development • Microservices Architecture • Cloud Computing • Database Design • CI/CD • Agile Project Management • Team Leadership • System Optimization

TECHNICAL SKILLS

Category	Skills
Programming	JavaScript, TypeScript, Python, Java, SQL
Frontend	React, Next.js, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Express.js, Django, NestJS
Databases	PostgreSQL, MongoDB, MySQL, Redis
Cloud	AWS, Azure, Google Cloud
DevOps	Docker, Kubernetes, Jenkins, GitHub Actions
Tools	Git, Jira, Postman, VS Code
Testing	Jest, Cypress, Mocha

PROFESSIONAL EXPERIENCE

Senior Software Engineer | GlobalTech Solutions Ltd. — London, United Kingdom
January 2023 – Present

- Designed and developed scalable web applications using React, Node.js, and TypeScript.
- Built REST APIs supporting more than 100,000 monthly active users.
- Improved API response times by 35% through database optimization and caching.
- Implemented CI/CD pipelines using Docker and GitHub Actions.
- Mentored a team of five junior developers.
- Collaborated with product managers, designers, and QA engineers to deliver software releases.

Software Engineer | Innovate Digital Systems — Manchester, United Kingdom
June 2019 – December 2022

- Developed frontend applications using React and Redux.
- Built backend services using Node.js and Express.
- Integrated third-party payment and authentication APIs.
- Designed relational database schemas using PostgreSQL.
- Reduced application loading time by 25%.
- Participated in Agile ceremonies and code reviews.

Junior Web Developer | Creative Web Technologies — Birmingham, United Kingdom
July 2017 – May 2019

- Developed responsive websites using HTML, CSS, JavaScript, and Bootstrap.
- Implemented reusable frontend components.
- Fixed bugs and improved application usability.

- Worked with senior developers to deliver client projects.

EDUCATION

Master of Science in Computer Science | University of Manchester — Manchester, United Kingdom
September 2017 – September 2018
Grade: Distinction
Relevant Coursework: Advanced Software Engineering, Distributed Systems, Artificial Intelligence, Database Systems.

Bachelor of Technology in Computer Science and Engineering | University of Delhi — Delhi, India
August 2013 – May 2017
Grade: First Class
Relevant Coursework: Data Structures, Algorithms, Operating Systems, Computer Networks.

PROJECTS

Smart Recruitment Management System | January 2024 – April 2024
Technologies: React, Node.js, PostgreSQL, AWS, Python
Developed a recruitment platform to manage job applications and candidate profiles. Implemented resume upload and candidate search functionality, and created REST APIs for job postings and applications.
Project URL: https://example.com/recruitment-project

E-Commerce Platform | March 2022 – August 2022
Technologies: Next.js, Express.js, MongoDB, Redis
Developed an e-commerce application with product search and filtering, integrated secure payment processing, and implemented caching to improve product retrieval performance.
Project URL: https://example.com/ecommerce-project

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate — Amazon Web Services, 2024.
- Professional Scrum Master I — Scrum.org, 2023.
- Microsoft Azure Fundamentals (AZ-900) — Microsoft, 2022.
- Meta Front-End Developer Professional Certificate — Coursera, 2021.

ACHIEVEMENTS AND AWARDS

- Engineering Excellence Award — GlobalTech Solutions, 2024.
- Recognized for improving API performance by 35%, 2023.
- First Place, University Software Development Competition, 2017.
- Awarded academic merit scholarship during postgraduate studies, 2018.

PUBLICATIONS AND RESEARCH

Performance Optimization Techniques for Scalable Web Applications
Published in: International Journal of Software Engineering Research, 2023.
Research interests: Distributed systems, cloud computing, software performance optimization.

VOLUNTEERING AND COMMUNITY INVOLVEMENT

Technical Mentor — Code for Everyone | January 2022 – December 2023
Mentored students learning JavaScript and web development, conducted monthly programming workshops, and assisted beginners with open-source contributions.

PROFESSIONAL MEMBERSHIPS

- Association for Computing Machinery (ACM) — Professional Member, 2022–Present.
- IEEE Computer Society — Member, 2021–Present.

LANGUAGES

Language	Proficiency
English	Fluent
German	Intermediate
French	Basic
Hindi	Native

INTERESTS

Open-source development, artificial intelligence, cloud architecture, technical blogging, mentoring, and long-distance running.

STRENGTHS

- Strong analytical and problem-solving abilities.
- Excellent communication and interpersonal skills.
- Adaptability to new technologies and changing environments.
- Team collaboration and leadership.
- Time management and organizational skills.
- Quick learner with a continuous improvement mindset.
- Ability to work independently and under pressure.

WEAKNESSES

- Sometimes spend additional time ensuring work meets high-quality standards.
- Occasionally find it challenging to delegate tasks.
- Working on improving public speaking and presentation confidence.

HOBBIES

Reading technology and business books, developing personal coding projects, playing chess, travelling and exploring different cultures, playing badminton, and participating in technology communities and hackathons.
